EARLY LITERACY CELEBRATION

November is our annual Early Literacy Celebration. What is Early Literacy? It's everything your child knows about books and reading before they actually learn to read. The literacy skills they learn can be how to hold a book, the difference between words and pictures, the beginning and end of a story and more. Reading aloud every day to your child prepares them to learn how to read!

Your library has these ongoing programs to assist you as a parent or caregiver:
